Horizon Bank Security Addendum

Document ID D06 | Effective date 1 March 2026 | Status EXECUTED FOR DEMONSTRATION

Party	Role
Asteria AI SAS	Provider
Horizon Bank SA	Customer

1. Relationship to Subscription Agreement

1.1 This Addendum supplements the ClauseLens Enterprise Subscription Agreement identified as D04. 1.2 Defined terms not stated here have the meanings given in D04.

2. Security Incident

2.1 'Security Incident' means confirmed unauthorised access to, acquisition of, or disclosure of Customer Data. A service outage that does not involve Customer Data is not, by itself, a Security Incident.

3. Notification

3.1 Provider shall notify Customer within twenty-four (24) hours after confirming that a Security Incident affects Customer Data. 3.2 The initial notice shall describe the known scope, affected systems and containment actions, to the extent known.

4. Testing and Evidence

4.1 Provider shall perform an annual independent security test and deliver the executive summary to Customer within thirty (30) days after completion. Delivery does not constitute Customer acceptance unless Customer confirms acceptance in writing.

5. Remediation

5.1 Provider shall address material findings according to a documented remediation plan. 5.2 The parties shall agree any customer-specific deadline in writing.

6. Continuing Effect

6.1 D04 remains in force. If this Addendum conflicts with D04 on security incident notification, this Addendum controls.

DOCUMENT STATUS
